

NEVADA STATE EDUCATION ASSOCIATION

NSEA-Retired Report

to the

2024 Delegate Assembly

Nevada State Education-Retired have continued to reach out to every unit in our State, along with Aspiring Educators we have held several organizing meetings in our rural counties. Again, in the late Spring we should finish meeting in all 17 counties. We continue to wait for Join Now from National Education Association to become fully functional. This would allow prospective members to join online and to use their credit or debit cards to join rather than having to locate their check books and fill out our application and EFT forms. Those forms and options will remain available, but to increase the options will aid us in increasing our membership.

We are also working on creating local chapters in the rural areas to help UCN-R to communicate more efficiently across the massive expanses of our beautiful state. We enjoy traveling to see everyone and will continue to do that but with local chapters the ability to get information out to our members quicker and more efficiently is achievable.

Fran McGregor was elected as NSEA-R Vice President replacing Tom Wellman and Philip Kaiser is now the NSEA-R representative on the NSEA Board of Directors. Phil was elected to replace Harry Beall, who termed out. We are excited to welcome Fran and Phil to our board and are so very proud of the service and accomplishments of Tom and Harry.

The Elizabeth Brown Scholarship for Emerging Educators continues to grow. Megan Maga of Humboldt County was the last recipient. Our fund raising is continuing and expanding including a great Trivia Night in Clark County, along with the great quilt raffle and future events. We will soon award a new scholarship to a great educator.

Watch your emails and newsletter for our upcoming visits to your locals and join us at the meetings and trainings as well as becoming a member of the Retirees.
