

NEVADA STATE EDUCATION ASSOCIATION

Instruction and Professional Development Committee Report

to the

2024 Delegate Assembly

The NSEA Instruction and Professional Development Committee has been meeting virtually and in-person over the last two years.

We had a successful Virtual NSEA Summer Leadership Conference in 2023.

The committee applied for a grant from NEA but did not receive funding. We will continue to apply for grants to fund instruction and professional development opportunities in our association.

We offered two NEA Blended Learning opportunities in the Spring semester of 2024 for Northern Nevada associations. Although the course was advertised to all associations in the north, only WEA members participated. We plan to offer state-wide opportunities next school year.

The IPD Committee is currently making plans for our NSEA Leadership Conference in 2025!
