

Reach for the Stars Foundation

Brian Wallace - Chair

As the Chair of the Reach for the Stars Foundation, I have been diligently working to revitalize our initiatives. The Foundation has collaborated with the IPD committee, revived our Scholarships and Awards program, and mobilized efforts for fundraising. However, there's always room for more support. If you're interested in lending a hand with any of these endeavors, please don't hesitate to reach out to me. Your involvement is invaluable to us. Ensuring that our members' voices are heard and that NSEA remains present in all discussions has been a top priority for me. I've made myself available to provide governance assistance whenever needed. It's been a hectic but rewarding journey, and I appreciate the trust you've placed in me to represent our membership and the Reach for the Stars Foundation.

Now, onto the scholarship updates! Reach for the Stars is excited to announce the Loretta Harper Reach for the Stars Scholarship. This scholarship awards two recipients with \$2,000 each annually. While we encourage applicants pursuing a degree in education, the scholarship is open to all fields of study. Additionally, the Foundation offers the same opportunity to graduating seniors or recent graduates from Nevada public high schools through the Chuck Fletcher Reach for the Stars Scholarship. Please spread the word about these scholarship opportunities, and let's continue to empower our students to strive for excellence together.
